

## COVID - Tired of hearing that?

Our membership is made up mostly of essential workers. We've had to work, adjust schedules, adapt to new procedures, deal with lack of supplies, homeschool our children, etcetera. Non-essential workers 'get' to stay at home but have the same concerns, plus potentially the major burden of not having income from lack of work! We are preoccupied by all of this, while worrying about catching and spreading a highly contagious, life-threatening disease. Whew.

Thank you! Thank you for stepping up. Thank you for doing your job. Thank you for taking care of your family. Thank you for helping your neighbor, local citizens, and each other. Thank you for all that you do to make all of our lives livable.

Ok, so we are all tired of COVID: the word, the restrictions, the changes. But it's still relevant and will be for a long time. Please continue to be diligent about health and safety precautions, such as social distancing, wearing masks, and the other recommendations from the CDC.

You are the heart of our credit union. Please continue take care of yourselves and each other!

## STAYCATION TIPS

One way to save money on your summer vacation is to take a staycation. A staycation is when you visit places close to home with day trips to local attractions. One of the many benefits to a staycation is, you save money on travel expenses, such as airfare and hotel accommodations.

Here are a few things you can do to make your staycation count. Make a list of local tourist destinations, think about the places you have always wanted to visit, and look on-line for ideas. You can make a travel itinerary for a weekend, few days, or week.

When is the last time you visited any of these local attractions?

## REFINANCE YOUR VEHICLE LOAN!

You can refinance a vehicle loan, and there are a lot of great reasons to do so.

The best reasons to consider refinancing are:

- If you don't think you got a great deal on your loan
- You got the vehicle a couple of years ago and the interest rates are lower now
- You accepted financing from the manufacturer to be able to take advantage of cash back deals.

Refinance the deal as soon as the contract allows you to, and you can have the best of both worlds – an affordable interest rate, the rebate, and payroll deduction.
